Rob and Khush De Rose  
Isabella and Marcus Paediatric Brain Stem Tumour Fund

Dear Rob and Khush,

Many thanks for meeting with me and letting me know of the work of the Isabella and Marcus Paediatric Brain Stem Tumour Fund in raising money for research into **Diffuse Intrinsic Pontine Glioma** (DIPG). I understand that you aim to fund a laboratory dedicated to investigating this terrible disease.

I would like to extend my whole-hearted support, as Head of Central Nervous System Tumours at the Royal Melbourne Hospital, to your effort, along with Professor Andrew Kaye, as the Director, of the Brain Tumour Laboratories at the Department of Surgery, University of Melbourne.

Please keep us informed of your progress and anything that we can do to assist you.

Yours sincerely,

**Dr Kate Drummond, MD, FRACS**  
**Head, Central Nervous System Tumour Stream**  
**Domain Coordinator for Cancer, University of Melbourne**
